JAM Program Chair

Welcome to the 2016 Joint Annual Meeting!

The American Society of Animal Science is excited to be meeting jointly with the American Dairy Science Association®, the Canadian Society of Animal Science and the Western Section of the American Society of Animal Science.

Around 2,000 abstracts were submitted, and approximately 1,800 will be presented. Prior to the start of the JAM, the 5th Grazing Livestock Nutrition Conference will take place at the Canyons Resort in Park City with a scientific program containing over 40 abstract presentations. At the conclusion of JAM, the 35th International Society for Animal Genetics Conference will commence at the Hilton Salt Lake City Center. Around 400 abstracts were submitted to this meeting and over 360 abstracts will be presented.

JAM, combined with these two conferences, will create the most comprehensive two weeks in animal science meeting history.

Graduate student oral and poster competitions, as well as Student Affiliate Division competitions and activities are featured throughout the program. These activities provide an excellent way for students to highlight their scientific achievements and to network with other students and professionals. I encourage you to sit in on these competitions. You will be impressed by the quality of papers and the information presented by our students.

It has been an honor to serve as the JAM Program Chair for 2016; however, our program committees do the real work of organizing the meeting. These committees develop the ideas for the symposia, review the abstracts, and construct the oral and poster sessions.

The ASAS and ADSA® staff do a fantastic job with the logistics of the meeting and making everything run smoothly. If it was not for their hard work and dedication, none of this meeting would be possible. Please spare a moment to let the staff know what you think of the meeting.

JAM 2016 promises to be a meeting with a great scientific program and plenty of time for networking.

I look forward to seeing you in Salt Lake City!

ADSA AND ASAS PRESIDENTS' WELCOME

Dr. Michael Looper
ASAS President

Dr. Susan Duncan
ADSA President

On behalf of the American Society of Animal Science and the American Dairy Science Association, we welcome you to Salt Lake City and JAM 2016.

This year's meeting begins on Tuesday, July 19, and runs through Saturday, July 23. Many opportunities exist for interacting among society members, starting with the Opening Session on Tuesday, July 19, when five member-nominated speakers will share their stories and passion for animal science in a new series called AnimalX.

Stylized after the well-known Ted-Talks, each AnimalX presentation offers a unique perspective on animal agriculture. AnimalX spotlights can be found scattered throughout the program.

The Opening Session will be followed by a BBQ (page 10) for all attendees. Other special pre-meeting events include the ASN-ASAS Preconference: Gut Microbiota, Diet and Health and the ASN Poster Competition.

Over 50 symposia are scheduled that cross many species, disciplines and societal topics of importance to food and companion animal production.

Attendees are encouraged to take full advantage of this great opportunity to share ideas across species and societies, visit with each other in person, and make new acquaintances.

We are grateful to the many people involved in making this meeting a success, starting with our sponsors. Their support is essential to the quality program that makes JAM unlike any other meeting. A list of sponsors of this year's meeting is available in this program book. Please take time to thank them during the meeting. The program committee has worked long and hard to organize an excellent program. Our thanks to the Overall Program Committee of Shawn Archibeque (chair), Barry Bradford, Connie Larson, Ignacio Ipharraguerre, Cathleen Williams, Filippo Miglior, Jack Whittier and Clare Gill for their efforts in bringing forth this outstanding scientific program. We also thank the many others who contributed to this huge undertaking, including the staffs of ASAS and ADSA.

Finally, thank you, the attendees, for participating in JAM 2016 and making it a grand success!

Dr. Michael Looper, ASAS President

Welcome to the 2016 Joint Annual Meeting!

Dear CSAS Members and Participants,

The Canadian Society of Animal Science is excited to be meeting jointly with the American Society of Animal Science, the American Dairy Science Association, and the Western Section of the American Society of Animal Science.

It gives me great pleasure to welcome you to the Joint Annual Meeting in Salt Lake City. With over 3,250 participants from over 35 countries, this truly embodies an unparalleled global event of the brightest minds in animal science and agriculture.

This meeting provides an unequalled opportunity to see old friends, meet new ones, learn about CSAS's recent activities and advances in the animal science industry, and participate in discussions with experts from around the globe about some of the most important issues related to animal science. We are honoured to count you among the conference participants.

Another year has passed by with lightning speed; however, I invite all CSAS members to our 2016 Annual General Meeting and Lunch, July 21 from 12:30-14:00 at the Salt Palace Convention Center in Salt Lake City. During our AGM, I will present to you the most recent updates related to the work of your executive team, inform you of a number of achievements, as well as host a discussion on challenges confronting our society.

I look forward to joining you in attending many exciting presentations including the student competitions, scientific discussions, CSAS symposium, and our CSAS awards night where we recognize and celebrate outstanding members of our society.

Please enjoy the conference and take advantage of the many opportunities to learn, share, and network in Salt Lake City.

Respectfully yours,

WSASAS PRESIDENT'S WELCOME

Dr. Micheal Salisbury
WSASAS President

The Western Section of the American Society of Animal Science (WSASAS) is excited to be part of JAM, and meeting jointly with the American Society of Animal Science (ASAS), American Society of Dairy Science (ADSA) and the Canadian Society of Animal Science (CSAS). We would like to welcome everyone to Salt Lake City, UT and hope that you enjoy the joint programming this year.

It is always exciting to join our programming with the national programming; thus, I would encourage everyone to take full advantage of the WSASAS activities. However, there will be some programs that are exclusive to WSASAS. One of the strengths of WSASAS is our student members and they will be highlighted in three events. First, 19 graduate students will compete in our graduate student paper competition representing nine different institutions on Wednesday. Second, make plans to attend the undergraduate poster competition on Thursday morning. Third, the Young Scholar Recognition program will highlight the accomplishments of two M.S. and two Ph.D. students.

Although the WSASAS sponsored ruminant nutrition symposium will be a part of the Grazing Livestock Nutrition Conference that will precede JAM, there are other symposia to participate in covering broad areas by species, discipline and societies. We encourage everyone to take advantage of this opportunity to learn about cutting edge research, emerging technologies, and hot topics in animal science.

We are grateful to all those involved in organizing this tremendous event and making JAM the outstanding conference it has grown to be. We encourage everyone to look at the list of sponsors in the program and thank them when you see representative(s) throughout the meeting.

The WSASAS would like to encourage everyone to make the most of this opportunity to network, make new friends, and visit with old friends. Events, such as this, are what allow us to learn from each other and find solutions to help solve those issues facing animal agriculture. Welcome to Salt Lake City and enjoy the conference.

GENERAL MEETING INFORMATION

Poster Presentations

We have dedicated 4, one-hour blocks each day on Wednesday – Friday and 2 one-hour blocks on Saturday for poster presentations. The “open poster” sessions will be from 7:15 to 8:15 am Wednesday, Thursday, and Friday. Each poster presentation will be available for public viewing for the entire day, with the presenting authors present during the open posters time (7:15 – 8:15 am). The poster presentations space will be located in the Exhibit Hall. We are bringing ePosters to JAM in 2016. All posters will be presented as ePosters. This new format offers some new and exciting options for poster presenters and attendees. Most notably, all posters will be on display for the duration of the meeting and available to all attendees to view at their leisure. This new technology is less expensive for presenters than printed posters and is easily transportable.

Some features of the ePosters include:

- ePosters offer the option to have multiple pages per poster.
- Videos, animations, graphs and images can be embedded into the poster.
- Graphs and images can be expanded to full screen view with a single click.

The Exhibit Hall will open at 6:30 am, Wednesday through Friday.

Locating the Correct Poster Board

Find the posters you want to view in the back of the program and identify the screen number (second number to the left of the abstract title). Then locate the corresponding screen in the back of the Exhibit Hall. During Poster Sessions only the poster scheduled for presentation will be available for viewing. At all other times, all posters presented throughout the week will be available for viewing on their assigned screens. E-poster technicians are available on-site if you need help finding a poster.

ARPAS Continuing Education Units

The 2016 Joint Annual Meeting has been approved for up to 21 continuing education units (CEU) for the American Registry of Professional Animal Scientists (ARPAS) certification requirements. Check the schedule of events for times and location of the ARPAS exams.

Job Resource Center

The ASAS-ADSA-CSAS-WSASAS Job Resource Center is located in the exhibit hall. If allowed, the App will push all scheduling updates directly to your mobile devices. In addition to the JAM 2016 App is the Personal Scheduler. Find the Personal Scheduler at <https://event.crowdcompass.com/2016jam>.

Notice to Attendees

Use of cameras, video cameras, and cell phones (for calls or as cameras) is prohibited during oral and poster presentations to minimize disruption and unauthorized dissemination of data. Anyone found in violation of this policy will be asked to leave the session.

Transportation in Salt Lake City

Public transportation to and from the Salt Lake City International Airport is provided by the Utah Transit Authority (UTA).

Salt Lake City Sightseeing Options

From the Salt Lake City Convention and Visitors Bureau:

It is not just hotels that are within easy distance of the convention center. The downtown convention district abounds with restaurants, nightlife, and shopping. The convention center is next door to the City Creek Center, Salt Lake's newest shopping destination, and a short walk from the Gateway. If you prefer not to walk, six Trax stops (all within the “free fare zone”) provide quick transportation to destinations within the downtown area, or as far away as the University of Utah, South Valley, West Valley, or the Airport.
