

Dr. Adesogan received his B.S. in 1988 in Agriculture at the University of Ibadan, Nigeria, and his M.S. and Ph.D. in Animal Nutrition at the University of Reading, United Kingdom. He was an Assistant Professor of Animal Nutrition at the University of Wales, UK from 1995 to 2001, and is currently a Professor of Animal Nutrition and Director and Principal Investigator of the Feed the Future Innovation Lab for Livestock Systems (LISL). The LISL aims to sustainably intensify animal source-food production, marketing and consumption in 8 countries in order to improve the nutrition, health and incomes of the poor. He taught the graduate Principles of Forage Evaluation and Advanced Methods in Nutrition Technology courses and undergraduate Animal nutrition and biochemistry courses. He has served on the Editorial boards of the Journal of Animal Science, ANIMAL, and other journals and he has chaired or co-chaired the committees of over 13 PhD students and 6 MS students. He has authored or coauthored over 200 scientific publications, received over \$57,000,000 in research grants. He has given over 100 international or national seminars in over 25 countries, with at least half being invited presentations. He has mentored over 50 visiting scientists and interns from over 20 countries, and consulted for various organizations and companies including the International Atomic Energy Agency and the World Bank. His research interests include sustainable improvement of livestock production, using animal-source foods to improve human nutrition and health, improving the quality, conservation and utilization of forages to improve animal production and welfare; using feed additives to improve manipulate rumen digestion and enhance animal performance; using legumes to enhance the sustainability of animal production, and using plant nutraceuticals to improve animal health and performance. He has received various awards including the 2006 Graduate Student Mentor of the Year award at University of Florida, the 2007 American Dairy Science Association Pioneer Hi-Bred International Inc. Forage Award, the 2009 University of Florida Research Foundation Professorship award, the 2010 LEAD 21 Award Fellowship from the Florida Agricultural Experiment Station, and he was one of three finalists for the 2015 Doctoral Mentor of the year award from the College of Agriculture, University of Florida.
